CONFIDENTIAL

*Office of The Deputy Director  
For Intelligence (ODDI)*

*Overall Functions*

Provides executive management, direction, and coordination for Intelligence Directorate activities:

Researches, analyzes, and produces all-source foreign economic, political, geographic, strategic-military, weapons, scientific, [REDACTED] intelligence. 25X1B

Analyzes imagery in direct response to special requirements of the intelligence production offices and other components of CIA.

Produces regular current intelligence publications—including the President's Daily Brief, the National Intelligence Daily, and the Weekly Review—as well as intelligence reports and briefings for US policymakers and other leading officials.

Provides central library and reference services; publications, film, and map procurement; document dissemination and cartographic services.

*Administrative Staff*

Develops and implements administrative policies and procedures; provides staff support to the DDI and the ADDI; develops and implements specific policies with respect to personnel planning, training, logistics, travel, security, and equal employment opportunity.

*Plans and Programs Staff*

Prepares all Intelligence Directorate resource management submissions and other support to the Office of the Comptroller and DDA offices (Program Plans, OMB and Congressional Budgets, Staffing Complements, Procurement Plans, MBO, and Annual Reports); conducts ad hoc management studies and provides special staff

support for the DDI and ADDI; provides central records management control.

*Coordination Staff*

Serves as focal point for liaison with foreign intelligence representatives; for exchange of intelligence information; and for preparation of Daily Overseas Substantive Support Cable. Arranges domestic visitor briefings. Advises DDI on security controls and compartmentation.

*Foreign Field Representatives*

Provides DDI representation at selected foreign field posts for the exchange of intelligence information and analyses and for support of CIA activities abroad.

## CENTER FOR POLICY SUPPORT

DIRECTOR, CENTER FOR POLICY SUPPORT

Administrative  
Officer

Production Control Staff	Intelligence Issues Staff	SALT Support Staff	Congressional Support Staff
--------------------------------	---------------------------------	-----------------------	-----------------------------------

CONFIDENTIAL

CONFIDENTIAL

## ***Center for Policy Support (CPS)***

### ***Overall Functions***

Assists the Deputy Director for Intelligence in improving the quality, relevance, and timeliness of the intelligence product. Gives special attention to the analysis of intelligence issues critical to the formulation of US policy and the needs of the policymaker.

Maintains regular contact with the policy-oriented consumers of the directorate's intelligence products.

Monitors the research and production activities of the directorate and advises on their timeliness and relevance to the policy process.

Provides general supervision of the production of critical intelligence on issues that require resources from more than one component of the directorate.

Performs interdisciplinary analysis of selected critical intelligence issues.

Assigns responsibility within the directorate for special support to the NSC, the NFIB, the NIOs, and other interagency activities.

Evaluates intelligence collection activities related to selected intelligence issues with significant policy implications.

Exercises general supervision of special intelligence support or liaison activities with significant policy implications.

Maintains regular contact with the academic community and policy analysis centers and coordinates relations for the directorate.

### ***Administrative Officer***

Provides support for personnel, security, logistics, travel, training, and other ad hoc administrative functions.

### ***Production Control Staff***

Monitors the records on the research and production activities of the directorate and assigns responsibility for special support to the NSC, the NFIB, the NIOs, and other interagency activities. Also serves as recorder for the DDI Production Conference and similar production management and review meetings.

### ***Intelligence Issues Staff***

Seeks to improve the relevance of intelligence production to the policy process by maintaining regular contact with selected consumers, advise the DDI on the management of production on

selected critical intelligence issues, and provides substantive judgments on selected intelligence issues. The staff may produce intelligence analysis in independent papers or in conjunction with other analysts detailed to the CPS.

### ***SALT Support Staff***

Coordinates SALT-related activities among the production offices of the DDI, other members of the intelligence community, the National Security Council Staff, the governmental agencies comprising the SALT community, and the US SALT and SCC delegations.

### ***Congressional Support Staff***

Coordinates the directorate's substantive intelligence support for Congress. The Congressional Support Officer is the directorate's focal point for all official contacts with the Office of Legislative Counsel and the Legislative Branch.

*Directorate  
of  
Intelligence*

-------------------------------	----------------------------------	--------------------------------	--------------------------------------------	----------------------------------	---------------------------------

CONFIDENTIAL

***Office of Central Reference (OCR)***

***Overall Functions***

Designs, develops, and operates central reference facilities.

Receives and disseminates incoming intelligence reports and publications.

Provides remote terminal access to other classified and unclassified information systems within the intelligence community, US Government, and private industry.

Operates libraries of open-source, classified, and graphic materials.

Coordinates intelligence community programs for the procurement of foreign publications.

Acquires foreign and domestic books, periodicals, newspapers, and other published material for all components of the Agency.

Acquires motion picture films, photography, and videotapes in support of the Agency's mission and functions.

***Administrative Staff***

Provides support for personnel, security, logistics, travel, training, and other ad hoc administrative functions.

***Systems Analysis Staff***

Develops improved methods and systems of operation for OCR activities, manages Task Team efforts, and administers the office's management information program.

***Information Services Group***

Provides through five all-source area divisions comprehensive information and reference ser-

vices, and produces biographic intelligence for the community and the US Government.

***Document Services Group***

Provides centralized support in microform processing; central library services, including all-source classified and unclassified reference materials; open literature, film and videotape acquisitions; document and photo dissemination; storage and retrieval of such materials; and some computer programming.

Maintains a Historical Intelligence Collection of open literature on the subject of intelligence and provides both reference service and lending facilities for its materials.

## *Office of Economic Research (OER)*

### *Overall Functions*

Produces all-source worldwide economic intelligence including preparation of reports and memoranda in support of policymakers in the White House, Executive Office of the President, and in other federal departments and agencies.

Provides economic intelligence support to other CIA offices, NFIB, and various intra-government committees and groups.

Contributes to National Intelligence Estimates and current intelligence publications.

Provides representatives and support to inter-agency committees:

Chairman, DCI's Economic Intelligence Committee (EIC);

CIA representative on Economic Defense Advisory Committee, and Advisory Committee on Export Policy.

### *Executive Officer*

Directs the work of the Administrative Staff which provides support for personnel, security, logistics, travel, training, and other ad hoc administrative functions.

Directs the work of the Special Assistants who are responsible for collection, requirements, planning and liaison activities.

Directs the work of the Production Staff which assists in technical preparation of the products of the Office for publication.

Coordinates recruiting activities and development of special personnel development programs.

### *Development and Analysis Center*

Develops and applies advanced analytical methodologies to economic intelligence problems, and trains OER analysts in their use in ADP applications.

### *Area Divisions*

- China
- Industrial Nations
- Developing Nations
- USSR/EE

Produce all-source economic intelligence on assigned areas of the world and on international developments in trade, finance, energy, resources, and aid.

**Office of Geographic and  
Cartographic Research (OGCR)**

**Overall Functions 25X1A**

Produces all-source worldwide geographic intelligence in support of policy and operating officials.

Manages project [REDACTED] and similar multidisciplinary analysis and reporting.

Coordinates and produces the National Basic Intelligence Factbook.

Provides CIA representation on the interdepartmental US Board of Geographic Names.

Produces maps, charts, and graphics for CIA and the Department of State.

Provides specialized map reference services and coordinates interagency foreign map procurement program.

**Administrative Staff**

Provides support for personnel, security, logistics, travel, training, and other ad hoc administrative functions.

**Resources and Systems Staff**

Provides the reference assistance and all graphic support for a centralized collection of maps, books, and imagery to OGCR employees. Produces the National Intelligence Factbook. Serves OGCR's needs in the areas of technical development and support, methodologies and technical training in systems.

**Environment and Resources  
Analysis Center**

Provides problem-oriented and integrated intelligence analyses in the fields of agriculture, food,\* population,\* energy,\* water,\* and minerals.\* Provides reports and in-depth intelligence studies that incorporate treatment of basic political, economic, and social implications of the

resource and environmental questions examined. Develops and applies innovative methodologies and research tools.

**Cartography Division**

Provides cartographic and graphic services for all intelligence production offices, the DCI, DDO, COMIREX, various other Agency components, and the Department of State.

**Geography Division**

Produces all-source geographic intelligence reports on subjects and issues of priority significance, such as territorial conflict, population, food, water, energy, ocean resources, industry, and narcotics.

**Map Library Division**

Provides map reference services for Agency components and the Department of State; provides the leadership for and participates in the interagency foreign map procurement program.

**Office of Regional and Political Analysis (ORPA)**

**Overall Functions**

Produces analytical reports on present and emerging problems in foreign affairs of importance to policymakers and to the intelligence community.

25X1B Incorporates insights from other disciplines (sociological, anthropological, etc.) into political analysis whenever appropriate.

Conducts analyses on individual countries, on related groups of states, and on issues that transcend boundaries.

***Editorial Consultant and Production Liaison Staff***

Provides editorial assistance in the preparation of drafts of reports.

Facilitates the publication of reports and coordinates style and format with the Publications and Presentations Group.

Assures technical quality control of the products of the office.

***Senior Review Panel***

Assures substantive quality of the office's production.

Provides detached judgments on drafts submitted by the divisions.

Serves as sounding board for proposed new analytical projects.

***Strategic Warning Staff***

Represents the Agency in the intelligence community's Strategic Warning Staff located in the Department of Defense.

Assists in a continuing analysis of information and intelligence from all sources which might provide strategic warning.

Assists in issuing strategic notices and reports as appropriate.

***Administrative Staff***

Provides support for personnel, security, logistics, travel, training, and other ad hoc administrative functions.

***Production Divisions***

USSR	Africa
Eastern Europe	East Asia/Pacific
Western Europe/Canada	Latin America
Middle East	International Issues
South Asia	

Produces political intelligence based on all-source information.

Responds to requests from the policy community for analyses and briefings on priority intelligence subjects.

Contributes to National Intelligence Estimates.

Provides political intelligence support to the Current Reporting Group, to the Center for Policy Support, and to the NIOs.

***Methods and Forecasting Division***

Conducts experiments in a broad variety of analytical methods to expand and enhance the Agency's analytical capabilities.

Produces speculative scenarios of possible future events, especially developments that could have a dramatic impact on US interests.

**Office of Scientific Intelligence (OSI)**

**Overall Functions** 25X1B

25X1B  
Produces scientific and technical intelligence on foreign countries in nuclear energy, biological and chemical warfare, [REDACTED] life sciences, physical sciences, military and civil technologies, and future military systems.

Recommends collection priorities and improved collection techniques, initiates collection requirements, and provides evaluations and other guidance in support of collection activities.

Provides administrative and substantive support to the Joint Atomic Energy Intelligence Committee (JAEIC), the Scientific and Technical Intelligence Committee (STIC), and other NFIB organizations as required.

**Executive Staff**

Provides support services to office personnel in matters concerning personnel, training, finance, travel, logistics, security, document control, records management, and provides staff support to the D/SI on actions concerning collection requirements and evaluations, external contracting, and other matters concerning S&T intelligence.

**Intelligence Production Staff**

Monitors the office production program; reviews, edits, integrates, and disseminates office intelligence production; arranges for office intelligence support to other offices and agencies; coordinates office intelligence research and production with other offices and agencies; and prepares intelligence reports for publication.

**Physical Sciences and Technology Division**

Conducts all-source research, analysis, and finished intelligence production on foreign developments in the physical sciences and their applications, technological resources and technology transfer activities, advanced civil technologies, and the qualitative effects of the introduction of technological advances on selected foreign industrial processes and products, and provides the chairman and secretariat for the STIC.

**Life Sciences Division**

25X1B

Conducts all-source research, analysis, and finished intelligence production on foreign biological and chemical warfare, developments in the life sciences in foreign countries, including the biomedical aspects of spaceflight systems and the behavioral sciences, [REDACTED]

25X1B

**Military Technology Division**

Conducts all-source research, analysis, and finished intelligence production on foreign developments in advanced military technologies, electronics, the altered performance achievable in selected significant foreign weapon systems through the introduction of state-of-the-art technology, and projected future military systems of foreign countries based on scientific and engineering advances, and provides the Agency representative for the STIC.

**Nuclear Energy Division**

Conducts all-source research, analysis, and finished intelligence production on nuclear energy activities in foreign countries except costing and nuclear warhead order of battle, and provides the chairman, secretariat, and Agency representative for the JAEIC.

### **Overall Functions**

Produces strategic military and military-economic intelligence in support of national policy demands and current intelligence requirements.

Drafts, reviews, and coordinates national estimates on military and military-related subjects.

Provides intelligence analysis on and support to SALT and MBFR negotiations.

Provides intelligence support to the President and NSC principals on significant foreign military developments.

Provides support to the DCI for briefings on foreign military subjects to the NSC, congressional committees, and other appropriate officials.

Provides special support to the Office of the Secretary of Defense.

Participates in net force assessments.

### **Administrative Staff**

Provides support for personnel, security, budget, logistics, travel, training, and other ad hoc administrative functions.

### **Resources and Requirements Staff**

Develops and maintains an overall planning system for OSR, monitors office programs, and evaluates the effectiveness with which office resources are used in meeting substantive requirements. In conjunction with divisions, formulates collection plans and strategies and serves as the channel for levying substantive requirements on collection facilities.

### **Publications Staff**

Reviews, edits, and prepares for publication finished intelligence issuances produced by OSR. Advises the Director OSR on regulations and procedures concerning intelligence publications and ensures conformance with pertinent security and special handling directives.

### **Soviet Strategic Forces Division**

Produces all-source military intelligence on Soviet strategic missile, naval, and air forces, and command and control.

### **Theater Forces Division**

Produces all-source military intelligence on ground, tactical, air, and air defense forces of the

USSR, Mongolia, and East European Communist countries, and of all military forces of the West European countries.

### **Eastern Forces Division**

Produces all-source intelligence on the size, capabilities, deployments, and costs of the armed forces of the Asiatic countries with particular emphasis on the national security policies of the People's Republic of China, the [redacted] Investigates the capabilities and posture of military forces in potential crisis areas, such as the Middle East, the Persian Gulf area, and South Asia.

### **Programs Analysis Division**

Produces all-source military-economic intelligence on Soviet defense programs, including cost analysis, expenditure implications, and military-economic planning studies.

### **Regional Analysis Division**

Produces current intelligence on the armed forces of all countries whose military activities and capabilities are of significant interest to US policy planners.

### **Strategic Evaluation Center**

Provides integrated analyses in the areas of net force assessments and foreign national security policy.
